Subject: Alternate Site Plan for DR-19-0429
Attachments: 190708-LV-001-Alternate Site Plan-B.pdf

Hi Nancy,

As discussed during our meeting last week Tuesday, please find attached the Alternate Site Plan. The two changes shown in the attached as compared to our previously submitted site plan include:

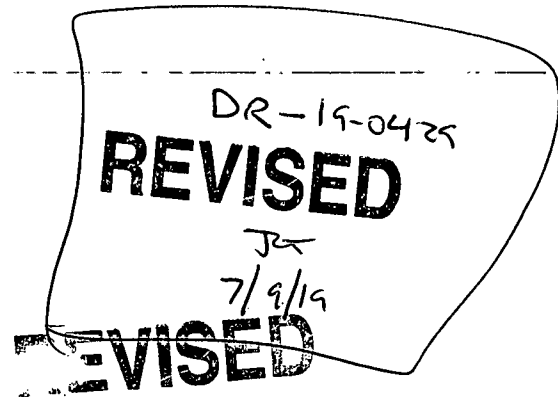

- Shorter alignment (with eastern terminus in the LVCC's Red Lot)
- Central station moved slightly east along alignment (closer to LVCC Central Hall)

As we will be briefing commissioners throughout this week, we will be sure to bring this Alternate Site Plan to ensure we address questions prior to the 7/17 meeting.

If you have any questions, please do not hesitate to reach out to us.

Best,
Jantien
